Conditions

Military Personnel

We also proudly supplied the following emergency response personnel:

New York City 9/11/2001

Hurricane Katrina 2005

Haiti Earthquake 2010

Testimonials, Acknowledgements, Awards, Certifications

Just wanted to let you know, we sold vests to two friends who had a roofing job, here in Arizona. We were actually really worried about them working on a roof in Arizona in the summer. We loaned them a laser thermometer so they could test the efficacy of the vests. At noon, the roof temp was 157, the vest was 79. They stayed cool and comfortable! They were impressed and looked as fresh as spring chicks that afternoon when we saw them ... Jim, Arizona

I rode 120 miles today in 90+ degree heat, and stayed wonderfully comfortable with my crown and neck coolers and cooling vest. I was rested, alert, and required far less hydration than the same ride without them. These really make hot summer riding days less risky and more enjoyable because I can wear my protective gear and stay comfortable. Thanks for your help and advice with my order and the quick shipping ... Marty, California

Again, I wanted to thank you so much for your part in this. The unit is now heading home but while in Iraq the vests came in handy. The second was designated as a "live saver" for anyone in the group taking ill in the heat. Unfortunately they had several opportunities when soldiers were taken ill or suffered wounds during the blazing temps; but thanks to the vest they had some bit of comfort! These truly were a blessing to the soldiers of 3-2/35 Inf Div 25th ID, Tropic Lightning ... Teresa, USA

Just a quick note to thank you for forwarding the vests for our vacation. We wore them five days in a row due to the hot weather. We were asked 15-20 times a day about the vest by other vacationers and staff. It was amazing for my MS ... thank you for the great customer service. We hope you have a great summer ... Sara, Florida

I have used your products for motorcycling and bicycling. They work great on long rides in the heat. All my fellow riders use them, we would not leave home without them. I especially like the High Visibility colors. Your vest helps me avoid heat stress AND avoid being run over by careless drivers ... Janet, OH

Love your cooling vest, best product on the market ... John, TX
