POWERED BY

KEWLTOWEL™

KewlTowel™ PRO is made using highly absorbent PVA (polyvinyl alcohol) material with a special dimple design for more effective water absorption and evaporation.

HOW TO USE :

1. Submerge in water for 1 minute
2. Gently Squeeze out excess water
3. Wipe exposed skin to create natural cooling effect!

STORAGE

After use, your towel must be hung to dry in an open area. Do not store your wet Kewl Towel Ultra in the plastic canister.

CLEANING

Machine or hand wash with mild detergent. No fabric softener. Hang to dry in open area.
